

# GORRE DINESH CHANDAN REDDY

📞 7416767453 — ✉ gorredinesh21@gmail.com — 🌐 GitHub — 🌐 Portfolio

## Education

### Indian Institute of Technology (ISM), Dhanbad

Bachelor of Technology in Computer Science and Engineering

Dec 2021 – May 2025

Dhanbad, India

- **Relevant Coursework:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Deep Learning

## Experience

### Reliance Industries Ltd.

Graduate Engineer Trainee (Data / AI Engineer)

Aug 2025 – Present

Mumbai, India

- **Talk-to-Genie Platform** — Built an external web application integrating Databricks Genie via OAuth-based authentication, enabling secure conversational access outside Databricks.
- **Unified Genie Architecture** — Designed a scalable RAG framework overcoming Databricks Genie's **30-table limitation** by organizing **120+ tables** across **9 Genie spaces**.
- **Intelligent Query Routing Engine** — Built semantic retrieval pipelines using table and column metadata to dynamically route prompts to relevant Genie spaces.
- **Near Real-Time Data Pipeline** — Built ADF ingestion pipelines with **15-minute refresh cycles** and Landing → Bronze → Silver transformations.

## Projects

### Career-Ops 3.0 — AI-Powered Job Search Command Center | Node.js, LangChain.js, Google Gemini, Ollama, Zod, Playwright | [GitHub](#)

- **All-in-One Job Hub** — One command center for job seekers to fetch postings from Greenhouse, Ashby, Lever and LinkedIn at **zero LLM cost**, auto-filter noise and track every application's status in a single dashboard.
- **AI Fit Scoring** — Scored each job /5 against every resume via **Zod**-validated LangChain.js chains (Ollama / Gemini), surfacing best-fit roles, matched skills and gaps.
- **Automated Resume Tailoring** — Generated a JD-specific resume per role from an LLM-distilled catalog of **23 GitHub repos**, rendered to ATS-ready PDFs with no fabrication.

### CricKart — Full-Stack E-Commerce Platform | React, Redux, Node.js, Express, MongoDB, Stripe | [GitHub](#)

- **MERN Architecture** — Built an end-to-end e-commerce store with a **React 18 + Redux** frontend and a **Node.js/Express** REST API exposing **18+ endpoints** over a MongoDB (Mongoose) data layer with User, Product and Order models.
- **Authentication & Authorization** — Implemented **JWT** auth with HTTP-only cookies, bcrypt password hashing, role-based access control (admin/user) and an email-driven password-reset flow via Nodemailer.
- **Payments & Admin Dashboard** — Integrated **Stripe** (PaymentIntent) checkout and Cloudinary image hosting; built product search/filter/pagination and an admin dashboard for order and inventory management with revenue analytics.

### Startup Intelligence Platform — AI Market Research Engine | Next.js 16, TypeScript, FastAPI, LangGraph, Qdrant, GraphRAG | [GitHub](#)

- **Hybrid GraphRAG + RAPTOR Engine** — Built an AI platform mapping startup ecosystems, funding and competitor landscapes via a hybrid GraphRAG + RAPTOR retrieval engine over **BAAI/bge-large-en-v1.5** (1024-d) embeddings with **bge-reranker-large** reranking.
- **LangGraph Research Agent** — Engineered a multi-hop QA agent (intent detection → query planning → graph + vector retrieval → reranking → cited synthesis) with real-time execution visualization and click-through source citations.
- **Graph Visualizer & Full-Stack** — Built a **React Flow** ecosystem graph (Company/Founder/Investor/Market nodes, multi-hop highlighting), a semantic similarity engine and an M&A predictor, on a Next.js 16 + FastAPI stack backed by **Qdrant** and Neo4j/NetworkX.

## Technical Skills

**Languages:** Python, JavaScript, TypeScript, Java, SQL, C++, C

**Gen AI / LLMs:** LangChain, LangGraph, RAG, GraphRAG, Agentic AI, MCP, Fine-tuning, Prompt Engineering, Hugging Face, Ollama, FAISS, Qdrant, ChromaDB

**ML & DL:** Machine Learning, Deep Learning, NLP, Computer Vision, CNNs, LSTMs, Transformers, BERT, GANs, Transfer Learning, TensorFlow, PyTorch, Keras, Scikit-learn

**Web Development:** React, Redux, Next.js, Node.js, Express.js, FastAPI, Spring Boot, REST APIs, JWT, OAuth 2.0, Tailwind CSS

**Data Engineering & Databases:** Databricks, PySpark, Azure Data Factory, ADLS Gen2, Apache Spark, ETL, Data Warehousing, AWS, PostgreSQL, MySQL, MongoDB, SQLite

**Tools & Concepts:** Git, Docker, Maven, Stripe, Cloudinary, System Design, MLOps, DSA, OOP, DBMS, Operating Systems

## Achievements

- Secured AIR **2903** in JEE Advanced and AIR **4616** in JEE Mains
- Ranked among **Top 200 teams out of 18,500+ teams** in Amazon ML Challenge
- Participated in Hackfest'23 organized at IIT Dhanbad
